

Minimum Wage Update for Various Jurisdictions

Various jurisdictions have increased their minimum wage rates. If applicable, you must increase the pay rate for exempt and/or non-exempt employees to meet the new minimum wage. For New York, the pay rate increase is effective on or before December 31, 2018. For all other jurisdictions and federal contractors, the increase is effective on or before January 1, 2019. An updated poster is not required provided that the employer has the most recent poster already on display. If needed, employers should order a new minimum wage poster. The minimum wage rate is based on the employee's work location.

These [instructions](#) will show you how to run a report to identify your employees' current rate of pay and how to make adjustments in ADP TotalSource for any employees who require pay rate increases.

Please note this is not a complete list of all current minimum wages in effect at this time.
